 **MARTEC**<sup>®</sup>  
Cooling

After more than five decades Martec has become one of Australia's leading providers of cooling, lighting, heating and exhaust products. Our focus has always been on providing our customers with the highest quality, best in class and competitively priced products and solutions to suit every lifestyle.

Our relentless dedication to continuing development, puts Martec at the forefront of innovation and design. With the latest technology, Martec now offers an exciting and comprehensive range of energy efficient, super quiet DC fans like the LINK. We also proud to announce the release of Newport and Malibu which are aesthetically designed to suit any applications.

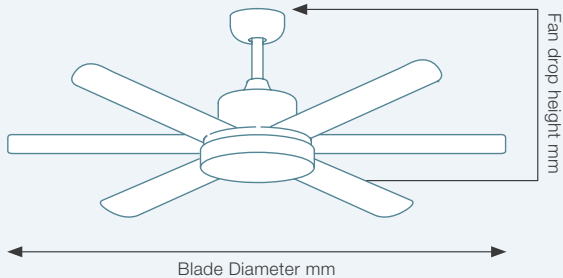

**Providing Australia  
with high quality,  
value for money  
products for over  
50 years.**

### **The Martec Promise**

A strong commitment to the principles of quality, service and attention to detail ensures we transform these values into unique and dynamic outcomes that are second to none. In order to attain and maintain these objectives, Martec has implemented a quality management process and system which meets the requirements of AS/NZS ISO 9001. In summary, Martec is committed to providing an unrivalled product and service offer to its many valued customers.

# CEILING FAN SIZE GUIDE

---

## Room Dimensions Suggested Ceiling Fan Size

- ◆ Up to 12 square metres (3.5m x 3.5m small bedroom) 1067mm (42")

## DC CEILING FANS

---

### ADVANTAGES OF DC MOTOR CEILING FANS

#### **High Efficiency**

DC motors on average consumes less energy than conventional ceiling fan motors.

#### **Speed Control**

DC motor control provides up to 6 speed settings and an easy to use reversing function for summer and winter operation.

#### **Light Weight**

DC motors weigh less than conventional fan motors, resulting in a lighter product that is easier to install for electricians.

#### **Quiet Operation**

DC motors are very quiet when in operation, ideal for bedrooms.

#### **Remote Control:**

DC ceiling fans can only be operated via a DC remote control (supplied).

## AC CEILING FANS

---

### ADVANTAGES OF AC MOTOR CEILING FANS

#### Remote Control

AC motors ceiling fans design allows more options for controllers from remote control, wall panel or a simple switch.

#### Low Cost

AC ceiling fans use less electricity than most household appliances especially air conditioning as a standard AC powered ceiling fan will use less than 100W on the highest speed with the majority of models using less.

#### More Choices

AC motors ceiling fans have been on the market for a while now. There are plenty of different options and styles for you to choose from that are within your budget.

## CEILING FANS ACCESSORIES

---

### ADVANTAGES OF ACCESSORIES

#### Remote Control

Remote control allows you to change the fan speed with a touch of a button via a remote or wall control panel.

#### Light

Ceiling fan lights gives you brightness while providing a relaxing cool breeze.

#### Downrod

Extension rod provides convenience and better efficiency when the area has a high ceiling.
